

## **JAPAN CLIMATE INITIATIVE \**

### **Japan Climate Action Summit 2025 Declaration** **Leading the Transition to a Decarbonized Society** **— *We Will Never Stop* —**

As non-state actors in Japan participating in the Japan Climate Initiative, we hereby pledge to continue our efforts to overcome the climate crisis, in order to sustain a future in which the 1.5°C target has been achieved beyond 2030.

Now is the time to accelerate energy efficiency and the expansion of renewable energy to the maximum extent, strengthen collaboration with stakeholders both domestically and internationally, and lead the resolute transition to a decarbonized society.
