

# Achieving “Zero Emission Tokyo”

Japan Climate Initiative Event at COP27

~Now is the Time to Accelerate Action : Japanese Non-state Actors' Path to Net-Zero

November 2022

Toshifumi Fukuyasu

Bureau of Environment,  
Tokyo Metropolitan Government

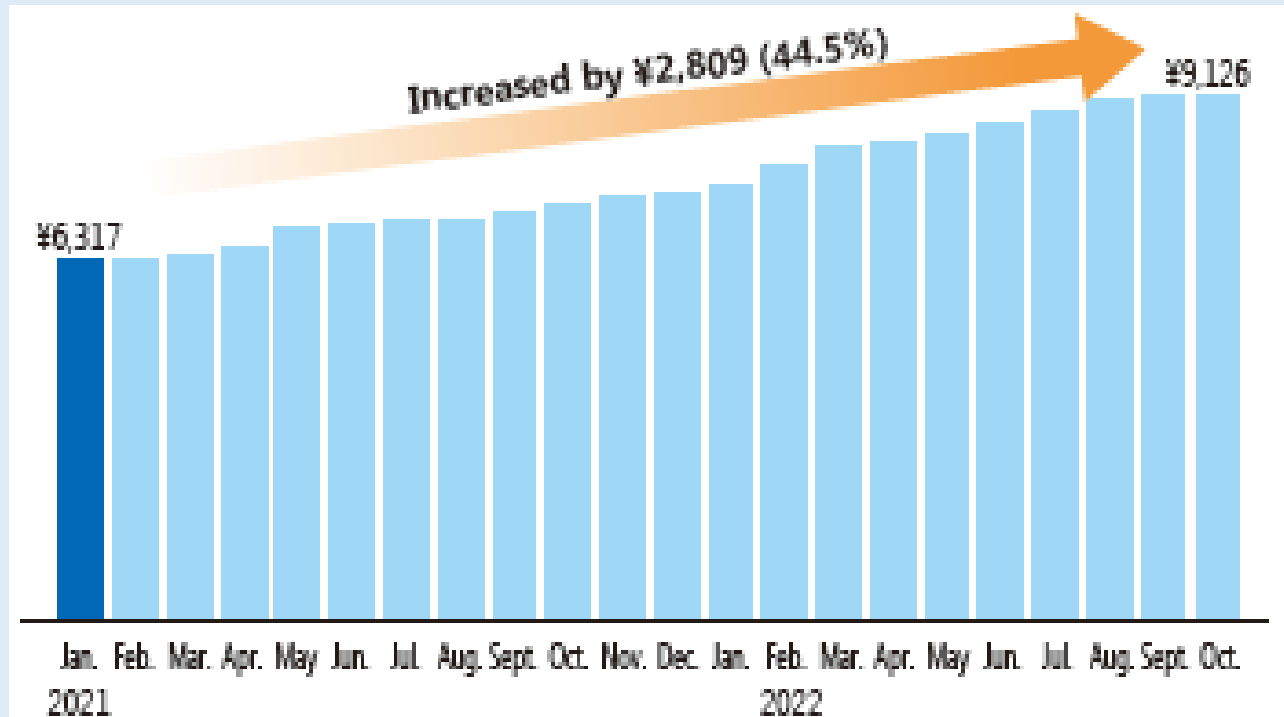

# Decarbonization and Energy Security

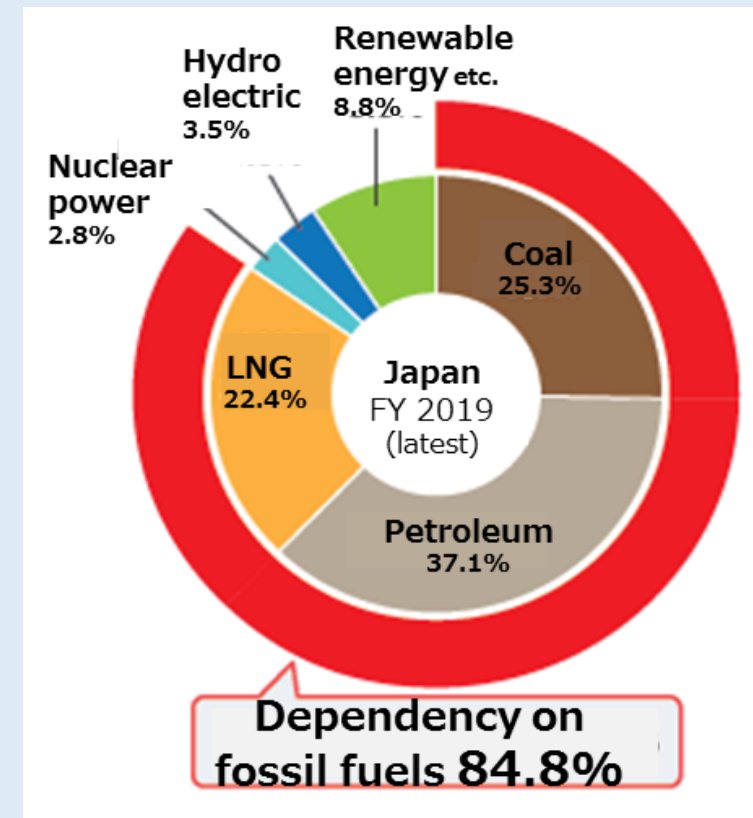

CLIMATE ACTION

– Now is the time to accelerate effective actions

## Electricity prices of Tokyo Electric Power Company (TEPCO)

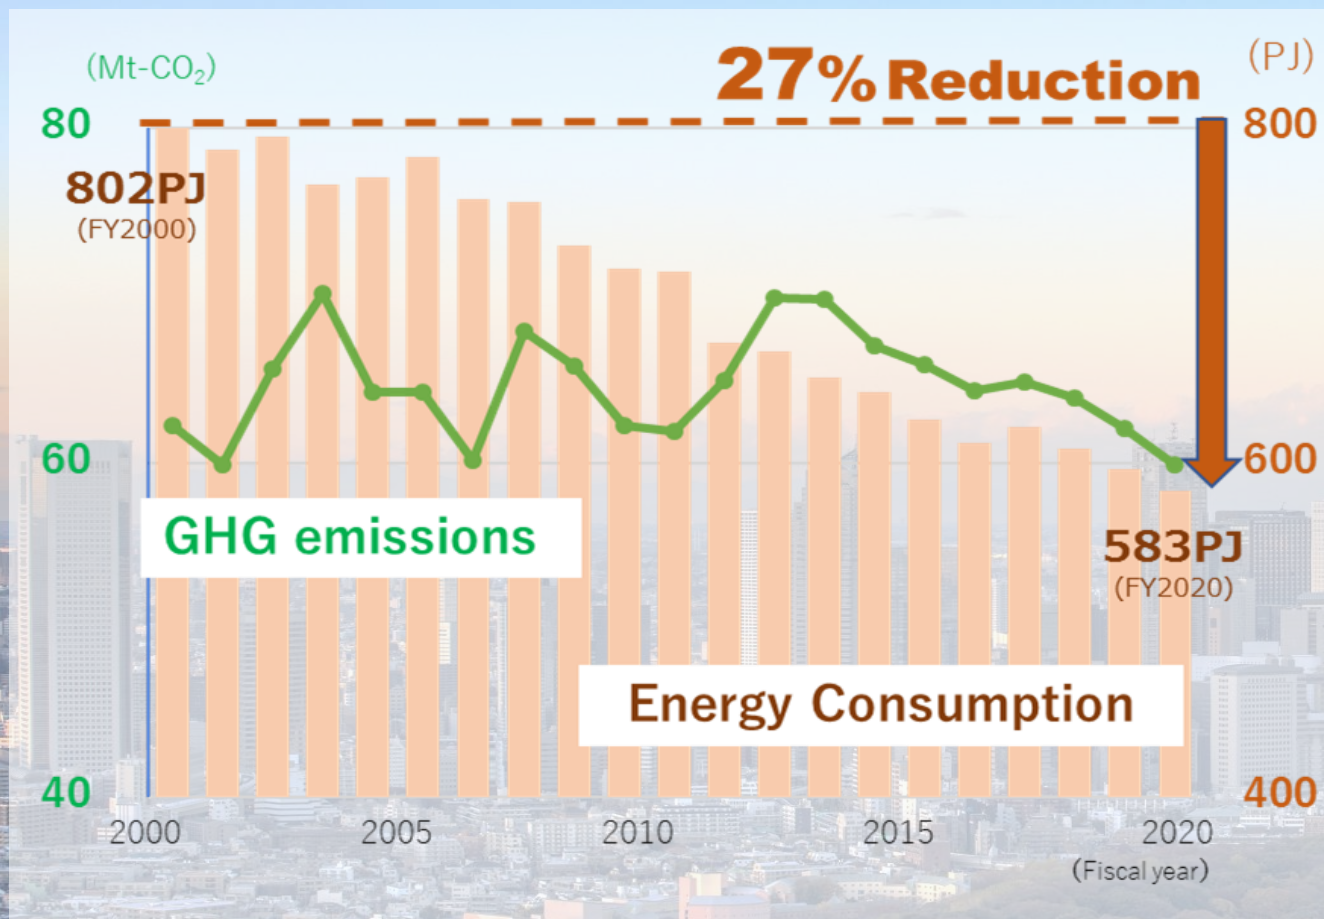

## Composition of Primary Energy Supply of Japan

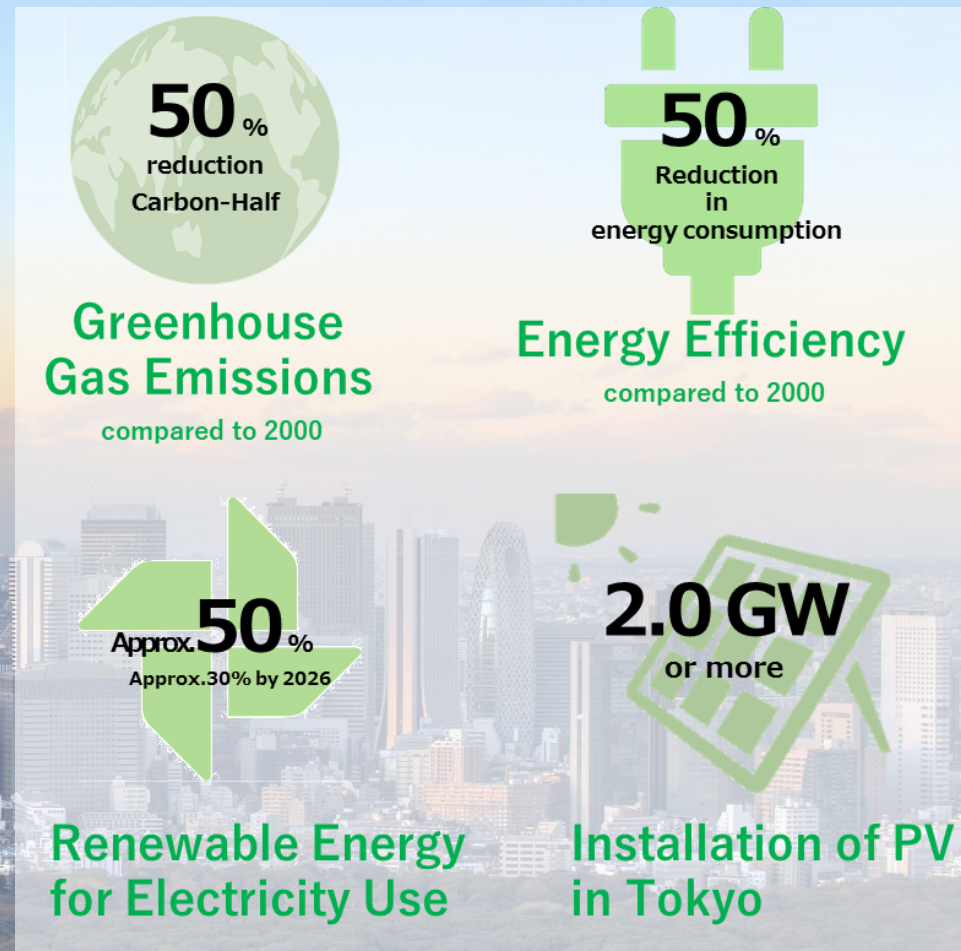

# Towards 2030 "Carbon Half"

## Trend of GHG and Energy consumption in Tokyo

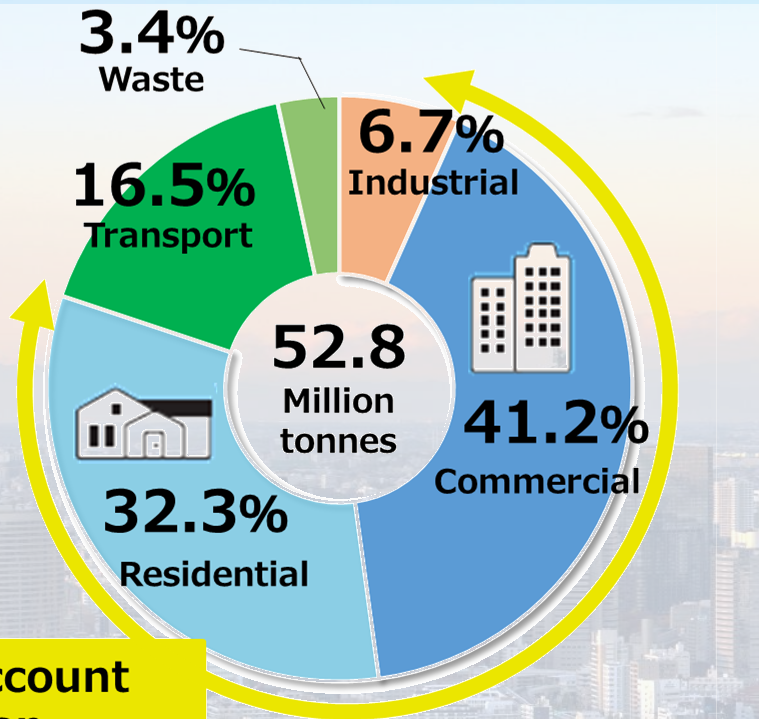

## 2030 GOALS

# Shaping Future Tokyo through Building-related Policies and Measures

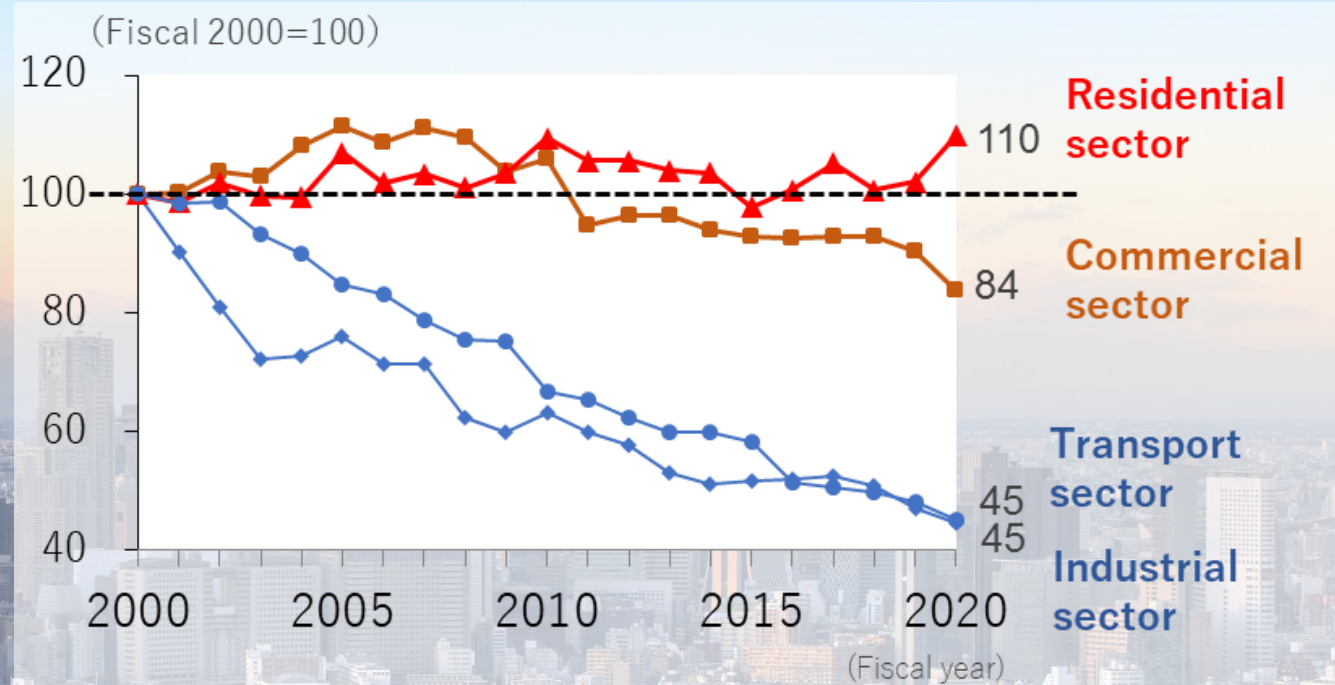

## Sector breakdown of CO<sub>2</sub> emission in Tokyo

**Buildings account for more than 70% of emissions**

Fiscal 2020 preliminary figures

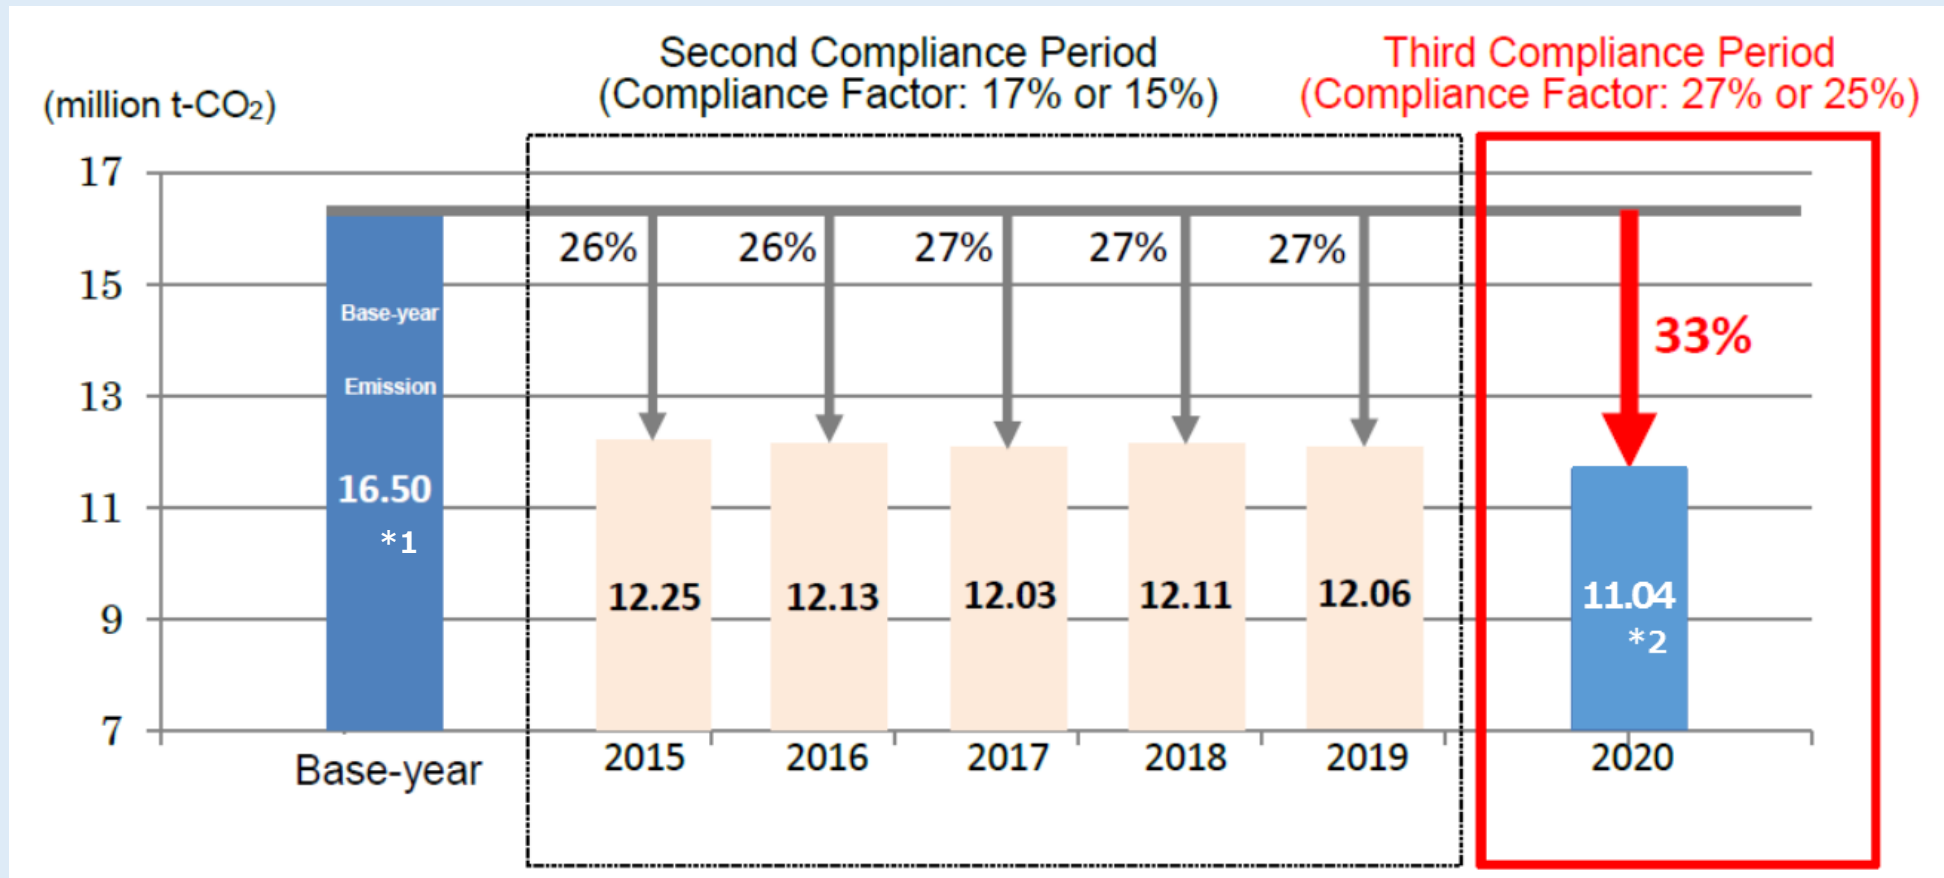

## Final Energy consumption by Sector in Tokyo

# World's First Urban Cap-and-Trade Program

(Mandatory CO<sub>2</sub> Reduction Program)

## Achieved 33% reduction

\*1 Base-year emission is the average emissions of three consecutive fiscal years selected by facilities between FY2002-2007

\*2 Aggregated value as of February 9, 2022 resulting from emission factors for electricity, etc. in the third compliance period

# Huge Potential of Tokyo's "Rooftops"

- ✓ Installation of Photovoltaic(PV) systems can cover a large part of the power consumption of households
- ✓ A trend toward mandatory installation in the United States and Europe

**Promote the mandatory installation of PV systems in new houses**

# Mandatory PV installation program

Target Buildings

**New detached houses, condominiums and buildings**  
\*New small and medium-sized (total floor area <math>< 2,000\text{m}^2</math>)

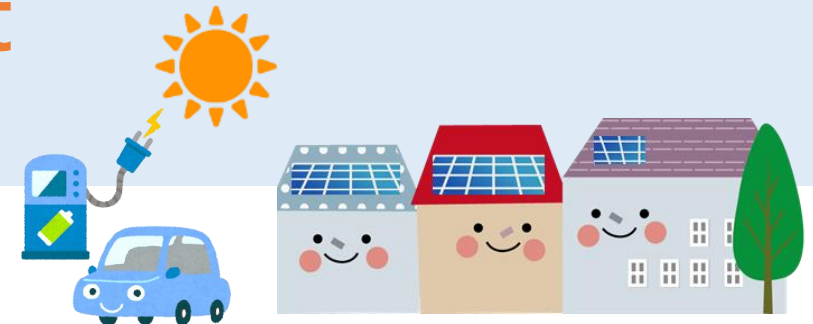

Target Individuals

**Major housing suppliers**  
\*Supply over  $20,000\text{m}^2$  of housing etc. on a yearly basis in Tokyo

Obligations

**Installation of PV & EV charging equipment , requirements for thermal insulation and energy-efficient equipment**

\* A bill to amend the ordinance will be submitted to the Assembly this year, enforcement will start in 2025.

# Ensure progression towards a sustainable city through decarbonization

## Cooperation with non-state actors around the World !

### C40 Cities Bloomberg Philanthropies Awards
